**Claire Zweig** | Glenbrook Technologies
MESSAGE FROM THE PRESIDENT AND BOARD CHAIR

Here we are at the wrap of another fiscal year, but this one has been a bit different to say the least. Prior to the COVID-19 pandemic, things were moving along nicely. We had seen an increase in Safe Routes to School participation throughout our service area, successful Street Smart NJ pedestrian safety campaigns, and new initiatives from local employers ranging from shuttle services to commuter benefits in compliance with New Jersey’s new legislation.

In mid-March, like many in the region, we shifted to a mandatory work-from-home schedule and our team quickly began preparing virtual lessons and engaging digital content. We rolled out key air quality and environmental education resources weekly to assist teachers and parents who had been forced into remote learning situations for their students. We launched an entire season of condensed lunch and learn programs for the local workforce to enjoy while away from their office. We partnered with larger companies like Kent Bicycles in Fairfield to amplify our bike safety messaging to their entire customer base.

As municipal officials prepared for increased street usage for things like recreation and outdoor dining, TransOptions provided assistance on safety messaging, anti-idling information for curbside pickup locations, and we implemented a bicycle rack pop-up program for towns who had seen an uptick in riders but needed additional parking options.

As employers worked to establish reopening plans, TransOptions facilitated focus group and roundtable conversations between them and NJ Transit to discuss timelines and employee demand for bus, train, and vanpool options.

We began using GoForGood, our trip tracking app (and appropriately the title of this year’s annual report), to build connections between people, communities, and students, with a focus on walking and biking more to improve health, the environment, and self-care during this stressful time.

Forecasters may try to tell you the transportation industry is headed one way or another as we attempt to climb out of this pandemic, but the truth is that we just do not know yet what the next year will bring. TransOptions, however, is prepared to help just as we have been for years and we look forward to getting through this together. On behalf of the entire organization, stay safe and stay healthy.

Daniel Callas, President Robert Altieri, Board Chair
Street Smart
Street Smart Campaigns

Street Smart NJ is a statewide public awareness campaign that combines educational outreach and high-visibility law enforcement to change behaviors as they relate to pedestrian safety.

Borough of Madison (Fall 2019)

7% decrease in drivers observed not stopping or yielding to pedestrians in a crosswalk when traveling straight or turning

9% decrease in survey participants seeing other drivers not stopping for pedestrians in a crosswalk

34% increase in survey participants’ recognition of Street Smart messaging
Borough of Pompton Lakes (Fall 2019)

54% increase in survey participants’ recognition of Street Smart messaging

5% decrease in drivers observed not stopping for a pedestrian in a crosswalk

54% increase in survey participants’ recognition of Street Smart messaging

7% decrease in pedestrians observed crossing mid-block

Morristown (Spring 2020) Impacted by COVID-19

How we Pivoted to Digital:

• Lunch and Learn online videos were produced to help Morristown promote the Street Smart campaign and pedestrian and driving safety

• More informative safety videos are expected to be produced in the new fiscal year
Connecting Communities

Rides for Seniors

Serving Madison, Chatham Borough and Chatham Township, this successful pilot program has been helping local older adults thrive by providing a subsidized on-demand transportation option without the need of a smartphone.

5,000+ rides provided to date
450+ registered riders

Safety Programs for Older Adults

Provided safety information and resources to 385 older adults at 6 safety fairs

AARP Smart Driver (6 hour) safe driving/driver improvement classes
4 classes with 47 total older adult participants
(Held at Hackettstown Medical Center and cosponsored by TransOptions and Atlantic Health System)

9 Older Adult Safe Walking and Safe Driving presentations reaching 214 older adults

How we Pivoted to Digital:
- Lunch & Learn online videos
- Developed a two-part YouTube presentation on “How to Keep Driving Longer and Safely” and “How to Retire from Driving"
Environmental Education

Junior Solar Sprints and The Hydrogen Car Challenge teach students about alternative fuels and STEM (science, technology, engineering and mathematics) through designing, building and racing model cars. Our air quality programs teach children about air pollution and public health through hands-on educational activities.

Junior Solar Sprints
Projected 2020 numbers: 3,000 students from over 100 schools

The Hydrogen Car Challenge
142 students with 43 teams from 10 schools participated

“Really nice to see those cars and what the students are capable of accomplishing...Definitely see the value in these events and programs so well supported by your team.”
— Tony C.

“Thank you so much! I am going to include this in next week’s virtual learning options for my students. I really appreciate you for sharing this with us; they will love it.”
— Lisa M.

Air Quality
9 events reaching 467 students who were able to measure, chart and learn about air pollution near their school

How we Pivoted to Digital:
• 12 weeks of Next Generation Science Standards-mapped remote content, including 21 online resources and 18 STEM activities
Safe Routes to School (SRTS)

Safe Routes to School initiatives aim to make walking and bicycling around neighborhoods and schools safe, fun, and easy for all students. Initiatives include Traffic Safety Team, a roleplaying activity for Pre K and Kindergarten Students, Ready to Walk and Roll, a storytelling activity for grades K-2, and Traffic Safety Town, an interactive streetscape where students grades 3-5 act out the rules of the road.

Traffic Safety Team
1 class reaching 15 students

Ready to Walk and Roll
25 classes reaching 416 students

Walk to School Days
6,300+ student participants

“Thanks again for putting this bookmark contest together. It’s a great way to engage kids.”
— parent from Deerfield Elementary School, Milburn

Traffic Safety Town
34 classes reaching 697 students

How we Pivoted to Digital:
• Free resources on walking and biking safety, a bookmark contest, “Bike The Block Day”, virtual Learn to Ride consultations and surveys
• 5,500+ students reached
TransOptions’ Bike Right® program offers bike riders of all ages and skill levels free bike training courses with League of American Bicyclist certified coaches. Bike Right® programs include both in-class and extracurricular safety activities.

Learn to Ride Classes

16 Learn to Rides reaching 240 participants

Bike Safety

430 students engaged through Bike Safety Education Programs

“Thank you for the opportunity to better serve my community.”

— Kimberly Williams, Community Development Coordinator, Town of Newton on Newton’s bike pop-up

Bike Helmet Giveaways and Community Outreach

Properly fitted 565 children with helmets and taught bike helmet safety at community events

TransOptions reached 1,450 people through safety, health and wellness events, street festivals and fairs

How we Pivoted to Digital:

• Bicycle Rack Pop-Ups were created for Newton and Berkeley Heights to promote bicycle usage and help address congestion and parking concerns as businesses reopened
• Available to all towns in our service areas that are interested in participating
Safe Routes to School Recognition Program Winners

Recognition is awarded in three year cycles. The following winners earned their level of status in 2020:

First Step

Mary Kay McMillin Early Childhood Center, Berkeley Heights
  Township of Hanover
Durban Avenue Elementary School, Hopatcong
  Hopatcong Middle School, Hopatcong
Tulsa Trail Elementary School, Hopatcong
  Mt. Pleasant Middle School, Livingston
Edith M. Decker Elementary School, Mt. Arlington
  Mt. Arlington School, Mt. Arlington
Wildwood Elementary School, Mountain Lakes
  Borough of Mountain Lakes
Halsted Middle School, Newton
Brooklawn Middle School, Parsippany-Troy Hills
  Central Middle School, Parsippany-Troy Hills
Eastlake Elementary School, Parsippany-Troy Hills
Intervale Elementary School, Parsippany-Troy Hills
Knollwood Elementary School, Parsippany-Troy Hills
Lake Hiawatha Elementary School, Parsippany-Troy Hills
Lake Parsippany Elementary School, Parsippany-Troy Hills
  Littleton Elementary School, Parsippany-Troy Hills
  Mt. Tabor Elementary School, Parsippany-Troy Hills
  Northvail Elementary School, Parsippany-Troy Hills
Rockaway Meadow Elementary School, Parsippany-Troy Hills
  Troy Hills Elementary School, Parsippany-Troy Hills
  Catherine A. Dwyer Elementary School, Rockaway
  Nixon Elementary School, Roxbury
  Jefferson School, Summit
  Memorial School, Washington
  Taylor Street School, Washington
  Harrison Elementary School, West Caldwell
  Jefferson Elementary School, West Caldwell
  Washington Elementary School, West Caldwell
  Wilson Elementary School, West Caldwell
Safe Routes to School Recognition Program Winners

continued...

Bronze

Franklin Borough School, Franklin
  Borough of Franklin
Hilldale Elementary School, Montville
Lenox Elementary School, Pompton Lakes
Lincoln Elementary School, Pompton Lakes
John F. Kennedy Elementary School, Wayne

Silver

Ogdensburg Borough Public School District, Ogdensburg
  Torey J. Sabatini School, Madison
    Borough of Madison
    Borough of Morris Plains
Stanhope School District, Stanhope

Gold

Thomas P. Hughes Elementary School, Berkeley Heights
  Mountain Park Elementary School, Berkeley Heights
  William Woodruff Elementary School, Berkeley Heights
  Columbia Middle School, Berkeley Heights
  Borough of Pompton Lakes
Employer and Municipal Services

Carpools, Vanpools and Shuttles

- 92 registered carpools, 215 participants
- 68 registered vanpools, 427 participants
- 11,588 rides taken on corporate shuttles

Reduction of CO2

- Over 2,707,639 miles cut for a total reduction of 2,169,662 lbs of carbon dioxide equivalent emissions

Mapping

- Conducted GIS mapping work in 18 municipalities and 15 schools

How we Pivoted to Digital:

- 330 total views for online Lunch & Learns covering a range of topics including Pedestrian Safety, Safe Driving and Bicycle Riding for Families

Driving Safety:

- Be aware of new traffic patterns
- Slow down
- Avoid distractions
- Stop for pedestrians
- Give a person biking 3 feet of space when passing
# NJ Smart Workplaces

The prestigious New Jersey Smart Workplaces (NJSW) program, which is free, annually recognizes employers for promoting commute alternatives for their employees.
